

# AGENDA AT A GLANCE

Start Time (GMT -4)	End Time (GMT -4)	Description	Room			
<b>Monday, October 26</b>						
10:00	11:30	<b>Plenary (Opening + Covid)</b>	Room 1	Room 2	Room 3	Room 4
		COVID-19: What We Know and Don't Know About SARS-CoV-2 and Water, Wastewater, and Hygiene				
11:30	11:45	<i>BREAK</i>				
11:45	13:00	<b>Plenary (Covid Panel)</b>	Room 1			
		COVID-19: State of the Global WASH Response				
13:00	13:15	<i>BREAK</i>				
13:15	15:00	<b>Side Events</b>	<b>COVID-19: Health Care Facilities</b>	<b>COVID-19: Wastewater Management</b>	<b>COVID-19: Handwashing</b>	
		WaSH in Healthcare Facilities in the Age of COVID-19: Where Do We Go From Here?	SARS-CoV-2 and Wastewater Surveillance: State of the Science	Hand Hygiene: During COVID-19 and Beyond		
15:00	15:30	<b>Virtual Exhibit Hall</b>				
15:30	23:00	<i>BREAK</i>				
23:00	23:45	<b>The Late Early Show</b>	Hosted by Aaron Salzberg			
<b>Tuesday, October 26</b>						
9:00	10:15	<b>Side Events</b>	Room 1	Room 2	Room 3	Room 4
		HWTS Network Annual Meeting	WASH in Schools: Accelerating Progress in Response to COVID-19	Evidence to Support Decision-making in Continuous Supply and Sanitation: 2 Case Studies in Sub-Saharan Africa	Applying Innovative Financing to Urban Sanitation: Lessons from Recent Experiences and Research on Funding Gap	
10:15	10:30	<i>BREAK</i>				
10:30	11:45	<b>Side Events</b>	Getting Left Behind: Ensuring High-Income Countries Achieve Water and Sanitation for All by 2030 (SDG6)	Towards Transformative-WASH: Effects of CHoBI7-Mobile-Health-Program on Diarrhea and Growth, and In-line-Chlorination on AMR and Microbiome	Session 1: Results of WASH COVID-19 responses in 84 countries Session 2: From cholera to COVID-19: how Haiti is achieving cholera elimination. Lessons for a global roadmap.	Designing and Delivering WASH Behavior Change at Scale: Theoretical Perspectives and Practical Experiences
11:45	12:00	<i>BREAK</i>				
12:00	13:00	<b>Special Session</b>	COVID, Congress, and US Foreign Assistance: What Went Down...And Still Needs To Be Done			
13:00	13:15	<i>BREAK</i>				
13:15	14:05	<b>Verbals</b>	<b>Theme: Water</b>	<b>Theme: Monitoring &amp; Evaluation</b>	<b>Theme: Economics, Finance, and Policy</b>	
		<i>3 Presentations: 10 min each followed by 5 min Q&amp;A</i>	Acceptability and Performance of Inline Chlorinators on Handpumps in Harare, Zimbabwe	Use at Scale of Flow Sensors to Improve the Functionality of Rural Water Systems	Assessing User Preferences for Increasing Sewer Connections in Dhaka Slums	
			Long-term Use and Effectiveness of Household and School Biosand Filters in Cambodia	Development and Validation of the Self-Efficacy in Addressing Menstrual Needs Scale (SAMNS) in Bangladeshi Schools	Effective Demand for In-line Drinking Water Chlorination at the Point of Collection in Dhaka, Bangladesh	
			Waterborne Pathogen Prevalence in Household Tap Water from Intermittent Versus Continuous Water Supply in India	Modeling Exposure to Fecal Contamination in Drinking Water due to Multiple Water Source Use	How Much Will Safe Sanitation For All Cost? Evidence from Five Cities	

# AGENDA AT A GLANCE

Start Time (GMT -4)	End Time (GMT -4)	Description	Room												
14:05	14:15	<b>BREAK</b>													
14:15	15:05	<b>Verbals</b> <i>3 Presentations: 10 min each followed by 5 min Q&amp;A</i>	<table border="1"> <thead> <tr> <th>Theme: Water</th> <th>Theme: Sanitation</th> <th>Theme: Non-household settings</th> </tr> </thead> <tbody> <tr> <td>Effects of Temperature and Precipitation on Levels of E. coli in Drinking Water and on Child Hands</td> <td>Effectiveness of Sanitation Marketing in Rural Cambodia: A Case-control Study</td> <td>School-based WaSH Intervention to Improve Children's Health Literacy and Hand Washing in Manila, Philippines: Preliminary Results</td> </tr> <tr> <td>What Environmental Factors Influence the Concentration of Fecal Indicator Bacteria in Groundwater? Insights from Uganda and Bangladesh</td> <td>QMRA for Sanitation Policy in Fresno County's General Plan</td> <td>Evaluation of SaTo Pans in Healthcare Facilities, Kisumu, Kenya</td> </tr> <tr> <td>Are Deep Tubewells Safe Drinking Water Sources? Evidence of Risk Substitution from Rural Bangladesh</td> <td>Health and Environmental Safety of Sanitation Infrastructure in Vulnerable and Disaster-prone Geographies: Learnings from India</td> <td>Randomized Controlled Trial of the CHoBI7 Program on Handwashing with Soap among Household Members of Diarrhea Patients in Health Facilities</td> </tr> </tbody> </table>	Theme: Water	Theme: Sanitation	Theme: Non-household settings	Effects of Temperature and Precipitation on Levels of E. coli in Drinking Water and on Child Hands	Effectiveness of Sanitation Marketing in Rural Cambodia: A Case-control Study	School-based WaSH Intervention to Improve Children's Health Literacy and Hand Washing in Manila, Philippines: Preliminary Results	What Environmental Factors Influence the Concentration of Fecal Indicator Bacteria in Groundwater? Insights from Uganda and Bangladesh	QMRA for Sanitation Policy in Fresno County's General Plan	Evaluation of SaTo Pans in Healthcare Facilities, Kisumu, Kenya	Are Deep Tubewells Safe Drinking Water Sources? Evidence of Risk Substitution from Rural Bangladesh	Health and Environmental Safety of Sanitation Infrastructure in Vulnerable and Disaster-prone Geographies: Learnings from India	Randomized Controlled Trial of the CHoBI7 Program on Handwashing with Soap among Household Members of Diarrhea Patients in Health Facilities
Theme: Water	Theme: Sanitation	Theme: Non-household settings													
Effects of Temperature and Precipitation on Levels of E. coli in Drinking Water and on Child Hands	Effectiveness of Sanitation Marketing in Rural Cambodia: A Case-control Study	School-based WaSH Intervention to Improve Children's Health Literacy and Hand Washing in Manila, Philippines: Preliminary Results													
What Environmental Factors Influence the Concentration of Fecal Indicator Bacteria in Groundwater? Insights from Uganda and Bangladesh	QMRA for Sanitation Policy in Fresno County's General Plan	Evaluation of SaTo Pans in Healthcare Facilities, Kisumu, Kenya													
Are Deep Tubewells Safe Drinking Water Sources? Evidence of Risk Substitution from Rural Bangladesh	Health and Environmental Safety of Sanitation Infrastructure in Vulnerable and Disaster-prone Geographies: Learnings from India	Randomized Controlled Trial of the CHoBI7 Program on Handwashing with Soap among Household Members of Diarrhea Patients in Health Facilities													
15:05	15:15	<b>BREAK</b>													
15:15	16:15	<b>Posters and Happy Hour</b>													
16:15	23:00	<b>BREAK</b>													
23:00	23:45	<b>The Late Early Show</b>	Hosted by Clarissa Brocklehurst												
<b>Wednesday, October 28</b>															
			Room 1      Room 2      Room 3      Room 4												
9:00	10:00	<b>Posters and Happy Hour</b>													
10:00	11:30	<b>Plenary (Inequalities)</b>	Addressing Systematic Inequalities in WaSH – It's Me; Not You												
11:30	11:45	<b>BREAK</b>													
11:45	12:45	<b>Special Session</b>	Sanitation: New Pathways to Action and Scale												
12:45	13:00 PM	<b>BREAK</b>													
13:00	13:50	<b>Verbals</b> <i>3 Presentations: 10 min each followed by 5 min Q&amp;A</i>	<table border="1"> <thead> <tr> <th>Theme: Water</th> <th>Theme: Monitoring &amp; Evaluation</th> <th>Theme: Culture/Diversity</th> </tr> </thead> <tbody> <tr> <td>Investigating Antibiotic Resistant E. coli in Drinking Water in Bekasi, Indonesia</td> <td>Water Point Functionality Estimates and Associations: Evidence from Nine Countries</td> <td>Audio Diaries: A Novel Method for WASH-related Stress Research</td> </tr> <tr> <td>Surveillance for Waterborne Disease Outbreaks – United States, 2015-2017</td> <td>Realtime Assessment of WASH Coordination in Humanitarian Emergencies</td> <td>Women's Sanitation Needs in their Workplaces: A Mixed-methods Study in Mukono, Uganda</td> </tr> <tr> <td>Effectiveness of Delivering Household Water Filters Using Community Hygiene Clubs in Rwanda: A Cluster RCT</td> <td>Strengthening Water Quality Monitoring Following Cyclones Idai and Kenneth in Mozambique</td> <td></td> </tr> </tbody> </table>	Theme: Water	Theme: Monitoring & Evaluation	Theme: Culture/Diversity	Investigating Antibiotic Resistant E. coli in Drinking Water in Bekasi, Indonesia	Water Point Functionality Estimates and Associations: Evidence from Nine Countries	Audio Diaries: A Novel Method for WASH-related Stress Research	Surveillance for Waterborne Disease Outbreaks – United States, 2015-2017	Realtime Assessment of WASH Coordination in Humanitarian Emergencies	Women's Sanitation Needs in their Workplaces: A Mixed-methods Study in Mukono, Uganda	Effectiveness of Delivering Household Water Filters Using Community Hygiene Clubs in Rwanda: A Cluster RCT	Strengthening Water Quality Monitoring Following Cyclones Idai and Kenneth in Mozambique	
Theme: Water	Theme: Monitoring & Evaluation	Theme: Culture/Diversity													
Investigating Antibiotic Resistant E. coli in Drinking Water in Bekasi, Indonesia	Water Point Functionality Estimates and Associations: Evidence from Nine Countries	Audio Diaries: A Novel Method for WASH-related Stress Research													
Surveillance for Waterborne Disease Outbreaks – United States, 2015-2017	Realtime Assessment of WASH Coordination in Humanitarian Emergencies	Women's Sanitation Needs in their Workplaces: A Mixed-methods Study in Mukono, Uganda													
Effectiveness of Delivering Household Water Filters Using Community Hygiene Clubs in Rwanda: A Cluster RCT	Strengthening Water Quality Monitoring Following Cyclones Idai and Kenneth in Mozambique														
13:50	14:00	<b>BREAK</b>													

# AGENDA AT A GLANCE

Start Time (GMT -4)	End Time (GMT -4)	Description	Room				
14:00	14:50	<b>Verbals</b>	<b>Theme: Water</b>	<b>Theme: Non-household settings</b>	<b>Theme: Culture/Diversity</b>	<b>Theme: Evidence Based Decision Making</b>	
		<i>3 Presentations: 10 min each followed by 5 min Q&amp;A</i>	20 Years of Waterborne and Related Disease in Florida	Effect of Irrigation on Dietary Diversity, Food Security, and Child Stunting in Rural Mecha, Ethiopia	Menstrual Health at Work among Adult Women in Mukono, Uganda: A mixed-methods Exploration	Early Warning on Nutrition and Health Crises - Southern Madagascar	
			Impact of Temperature and Precipitation on Water Fetching Time in Sub-Saharan Africa	Evaluation of an Innovative Chlorine Generator in Health Care Facilities in Ghana and Uganda	Women are More Sensitive to Perceived Social Sanctions Related to Open Defecation: Evidence from Tamil Nadu	Cholera Hotspots: A Methodology to Identify Risk Factors and Elaborate Effective WASH Costed Plans	
			The Efficacy of Hydrogen Sulfide (H <sub>2</sub> S) Tests for Detecting Microbial Contamination in Harvested Rainwater Samples	Evaluation of a Menstrual Hygiene Management (MHM) Intervention among Urban and Rural Schools in Bangladesh	Basic Service Improvement in Slums: What Would Residents Prioritise?	Modelling Faecal Pathogen Flows and Health Risks in Dhaka: What it Means for Sanitation Decision-making	
14:50	15:00	<b>BREAK</b>					
15:00	15:30	<b>Virtual Exhibit Hall</b>					
16:30	16:30	<b>Special Session</b>	Young Professionals Happy Hour				
16:30	23:00	<b>BREAK</b>					
23:00	23:45	<b>The Late Early Show</b>	Hosted by Joe Brown				

Thursday, October 26		Room 1	Room 2	Room 3	Room 4	
9:00	10:15	<b>Side Events</b>	Integrating Meaningful Community-Based Adaptation in Climate-Resilient Water Resources Planning and Sanitation and Hygiene Programming	WASH & Neglected Tropical Diseases: Generating the Evidence Base for Policy and Programming	What the Cluck?	Advancing Rural Water Services: Strengthening Systems for Professionalized Maintenance and Fit-for-Purpose Water Quality Monitoring
10:15	10:30	<b>BREAK</b>				
10:30	11:45	<b>Side Events</b>	What is all the Hubbub About Having a Hub?	Missing Links in Sanitation Market Systems: Institutional Accountability and Demand Activation	Menstruation & WASH: Learning from Global Humanitarian Emergencies and Workplace Contexts	What is "Quality" Sanitation? Investigating Service Standards and User Experience in Rural and Urban Settings
11:45	12:00	<b>BREAK</b>				
12:00	13:00	<b>Special Session</b>	Technology Showcase			
13:00	13:15	<b>BREAK</b>				
13:15	14:05	<b>Verbals</b>	<b>Theme: Monitoring &amp; Evaluation</b>	<b>Theme: Behavior Change</b>	<b>Theme: Hygiene</b>	<b>Theme: Non-household settings</b>
		<i>3 Presentations: 10 min each followed by 5 min Q&amp;A</i>	Safe Water Optimization Tool: Water Quality Data Analytics for Ensuring Household Water Safety in Refugee Camps and Other Humanitarian Settings	The Use of Behavioural-science Informed Interventions to Promote Latrine Use in Rural India: A Synthesis of Findings	Efficacy of Chlorine-based Surface Disinfection Against Vibrio Cholerae	Water, Sanitation and Hygiene at Health Care Facilities in Afghanistan and Uganda: Conditions and Determinants
			Water and Sanitation are Not Universal in Urban America	A Theory-based Process Evaluation of a Behavioral Intervention Designed to Improve Sanitation in Tamil Nadu	ChickFlows: A Food Value Chain to Assess Childhood Exposure to Chicken-related Enteropathogens in Maputo, Mozambique	Impact of WASH Practice on Ethiopian Hospital Environmental Contamination
			Understanding and Measuring Key Attributes of Sanitation-related Quality of Life in Rural Contexts	Using Barrier Analysis and Willingness to Pay to Promote Household Water Treatment in Haiti		

# AGENDA AT A GLANCE

Start Time (GMT -4)	End Time (GMT -4)	Description	Room
